Overview

- Modern phone jack stands out aesthetically
- Phone outlet matches other ASPIRE switches and dimmers
- Multiple colors and options available

Essential Info

Traditional wiring devices seek to minimize their presence. Why not turn your light switches, dimmers, and outlets into an integral element of your interior design? ASPIRE switches combine a modern, sophisticated appearance with performance-improving technical features. The boldly dramatic White Satin Telephone Outlet will replace an existing phone jack to match your ASPIRE switches and dimmers. A screwless [White Satin Wall Plate](#) is sold separately.

Important notes:

- Smarthome does not offer technical support on this product, please contact the manufacturer directly for all product support.
- Only defective exchanges for identical item within 30 days of purchase. After 30 days, please contact the manufacturer.

Additional Outlet & Switch Options Available

The Telephone Outlet is also available in [Desert Sand](#) and [Silver Granite](#). The ASPIRE Design System comprises a full line of wiring devices to meet every application in every interior. Replace your boring old switches with the aesthetically pleasing [Single-Pole Switch](#), [3-Way Switch](#) or [4-Way Switch](#). Add [dimmers](#) for ambience and [coax](#) outlets for your office and media rooms. Also available are [Ground Fault Circuit Interrupters](#) for kitchen, bath, or spa areas.
